## **DELFIN LNG ANNOUNCES COMPLETION AND PUBLICATION OF DRAFT ENVIRONMENTAL IMPACT STATEMENT**

**HOUSTON, TX** – Delfin LNG LLC (“Delfin”), a wholly-owned subsidiary of Fairwood Peninsula Energy Corporation (“Fairwood”), today announced the completion of the project’s Draft Environmental Impact Statement (“DEIS”), with publication effective as of July 15, 2016.

Frederick Jones, CEO of Fairwood, commented, “We are excited to have reached such a major milestone in the development of the Delfin LNG project. I commend the hard work undertaken by the various government agencies, and I look forward to continuing on the path towards a fully-permitted LNG export project.”

### **About Delfin LNG LLC:**

*Delfin LNG LLC (“Delfin”) is currently developing Port Delfin, a floating liquefaction and export facility to be located in the Gulf of Mexico. As planned, Port Delfin consists of onshore gas compression facilities and a deepwater port that uses existing pipeline infrastructure in the Gulf of Mexico to transport natural gas offshore to four moored floating liquefaction vessels. Delfin has submitted an application to MARAD and the USCG for authorization to construct, own, and operate a deepwater port capable of exporting up to 12.0 MMtpa of LNG. Further information is available at [www.delfinlng.com](http://www.delfinlng.com).*

### **About Fairwood Peninsula Energy Corporation:**

*Fairwood Peninsula Energy Corporation (“Fairwood”) is a midstream LNG company focused on providing critical infrastructure for the floating liquefaction industry. Fairwood is the parent company and 100%-owner of Delfin LNG LLC, which is developing the first floating liquefaction project in the United States. Fairwood is well-positioned to expand its business beyond Delfin LNG over time to a variety of participants in the growing midstream LNG industry. The company is led by Chief Executive Officer Frederick Jones and has headquarters in Houston, Texas.*
