DELFIN LNG ANNOUNCES RECEIPT OF POSITIVE RECORD OF DECISION

HOUSTON, TX – Delfin LNG LLC (“Delfin”) today announced receipt from the Maritime Administration of the project’s Record of Decision (“ROD”), with publication effective as of March 13, 2017. The next step will be for the Department of Energy to make a determination on whether the project should be permitted to export LNG to countries that do not have Free Trade Agreements with the United States.

Frederick Jones, CEO of Delfin’s parent company, commented, “We commend the tireless effort exhibited by the numerous individuals and government agencies involved in the permitting process to-date. We look forward to continuing this process and to further developing the Delfin LNG project.”

About Delfin LNG LLC:

Delfin LNG LLC (“Delfin”) is currently developing Port Delfin, a floating liquefaction and export facility to be located in the Gulf of Mexico. As planned, Port Delfin consists of onshore gas compression facilities and a deepwater port that uses existing pipeline infrastructure in the Gulf of Mexico to transport natural gas offshore to four moored floating liquefaction vessels. Delfin has submitted an application to MARAD and the USCG for authorization to construct, own, and operate a deepwater port capable of exporting up to 12.0 MMtpa of LNG. Further information is available at www.delfinlng.com.
